

FOR SELF-GOVERNMENT

Formation of State and City Administrative Bodies in Public Schools.

LECTURE BY LYMAN B. STOWE

System for Teaching Children, Civics and Good Citizenship Outlined Before Equal Suffrage League.

What is believed by the sympathizers of the Equal Suffrage movement to be one of the best methods of educating the young in citizenship so that the minds of young girls may become the mature minds of women properly trained in civics, the invitation of Equal Cities or State governments in the different public schools of the city. The plans for such an innovation were explained last evening in the Y. M. C. A. auditorium by Lyman Beecher Stowe, grandson of Harriet Beecher Stowe. The lecture was given under the auspices of the Equal Suffrage League of Plainfield and North Plainfield and proved highly interesting to those present.

Mr. Stowe declared that the teaching of pupil self-government in the public schools of the land had passed beyond the experimental stage and was now a permanent operation in over a thousand schools in the Eastern States. The system, of which there are many, is that invented by the late Dr. J. C. A. and which it has been an unqualified success in its very inception. Concrete examples of the working out of the system were given by the speaker. He showed that even color and sex have no bearing on the fitness of the young magistrates who look after the schools, and that while the principals of the schools will not admit that much improvement along that line is noticeable it is shown by itself in various ways that are all too obvious to the observer.

The plan is simple. By first instructing the pupils of a school in real government by having them write compositions on municipal and State administration, they are soon placed in a position to take part in the administration of the school. They will elect their own Governor, or Mayor, or President, and from these significant duties to the school and other petty officials the complete system of government is embarked. As its bearing on the final suffrage question is obvious, the great argument against giving the vote to women held out by the anti-suffragists, and which eventually comes to be a question of the ballot, but with the institution of self government in the public schools there begins a training of the female mind which will eventually remove this great objection and nothing remains to object to.

Mr. Stowe is a member of the State Board of Education of New York, whose aims and objects are to co-operate with the school authorities in vitalizing the training for self government. It is the principle of self-government as a training for the duties of citizenship rather than as a principle of self government, that the promoters are interested.

The committee assumes that educators realize that the too often deplorable condition of the young of the country spring from the apathy of citizens and that political inertia comes from an ignorance of civics and a realization of the duties and opportunities of citizenship.

These school cities and States have been established in Orange, N. J., Ellensburg, Washington, and others, and are operating with results. Mr. Stowe said that he had interviewed several Congressmen at Washington, and that without an exception they were heartily in favor of the scheme and much interested in its progress. He declared that it was the best method of educating the woman up to the point of voting when, where and how to vote on any question affecting the country.

R. H. DEPLEY, PRESIDENT, STATE TRUST COMPANY

At a meeting of the newly elected board of directors of the State Trust Company, for the purpose of organization, yesterday afternoon, R. H. Depley was unanimously elected President in the place of William A.

Clark. The latter, who owing to ill health and consequent anticipated extended absence from the city, asked to be relieved. In meeting his request, the Board passed a resolution thanking him for the assistance he had rendered the institution since its organization.

Mr. Depley, who is a large property owner in this city, brings to the company much valuable business experience having been for years president of the brokerage corporation of Abraham S. See & Depley, the oldest insurance brokerage corporation in New York City, it having been established in 1847. He is also President of the Walter Walton Company, of New York; president of the People Lumber Co. of New Jersey; president of the Bi-Partisan Municipal League of Plainfield, and president of the Plainfield Protective Association.

The other officers elected were Edward F. Feickert, first vice-president; M. C. VanAndrade, second vice-president; and Frederick Coriell, secretary-treasurer.

The report of the first vice-president showed the company to be in a very flourishing condition. It has 1,135 accounts on its books, its deposits have increased more than 60 per cent, and the business is already earning a profit of 5 and 5 per cent on the capital stock.

The officers received the congratulations of the stock holders on the splendid showing made.

MRS. WHELOCK DIES IN HER 85TH YEAR

Mrs. Harriette Effner Wheelock, wife of the late William Almy Wheelock, aged eighty-four years, died this morning at 3 o'clock at her home, 210 East Ninth street. She had been an invalid for several years. She was born in New York, and for many years lived in the Washington Heights section. She had a summer home at Easthampton, N. Y., and always retained her place to Plainfield last September so that she might be near her daughter, Mrs. George H. Strong, of Central New Jersey.

Mrs. Wheelock was a faithful member of the Washington Heights Presbyterian church, New York, for many years, and always retained her interest in the church. Beside a daughter, Mrs. Wheelock is survived by a son, W. E. Wheelock, of Morris Plains. The funeral will be given later.

LECTURE ON SOCIAL IDEALS AT P. H. S. AUDITORIUM.
Henry T. Bailey, formerly Commissioner of Art Education in Massachusetts, now editor of School Arts Magazine, will speak tonight in the High School auditorium, on "The Social Ideals in Education." The New Jersey State Normal School is the sponsor of the lecture. The general public of the city and Borough will be welcome to attend with the teachers. Admission free.

Prominent Friend Passed Away Today in Seventy-Ninth Year.

HAVILAND CHINA IMPORTER.

Born in Elias Hicks Homestead—His Father A Well Known Druggist—Three Children Survive Him.

Edwin Haviland, aged 78 years, a well-known friend, and a resident of this city for a number of years, died this morning at his home on East Second street from the infirmities of old age. He had been practicing an invalid for the past year.

Mr. Haviland was the son of James Cromwell Haviland, who, years ago, was one of the best known wholesale druggists in New York city. The latter purchased the homestead of Elias Hicks, founder of the Hickite Friends, at Jerico, L. I., and it was in that house that Mr. Haviland was born. Later he removed to Columbia Heights, Brooklyn, and then to Plainfield in 1874.

Mr. Haviland was a member of the Metropolitan Museum of Art, the Museum of Natural History, the Hardware Club, of New York. For many years he was the agent in this country for the celebrated Haviland china. He retired seven years ago. He was a member of the Religious Society of Friends, and the burial will be in the Friends cemetery, Brooklyn. The notice of funeral will be given later.

Mr. Haviland was survived by one daughter, Miss Caroline Haviland, of this city, and two sons, Edward Haviland, Jr., of Seattle, Wash., and Dr. C. W. Haviland, of Fort Collins, Col.

THREE TEARS GIVEN YESTERDAY AFTERNOON

There was considerable activity among society folk yesterday afternoon, when several "at homes" were held throughout the city. Mrs. William M. Sanford, of East Front street, gave a tea and reception for her daughter, Mrs. Edgar Harrison Yale, wife of Captain Yale, U. S. A., who leaves on Tuesday for Portland, Oregon, where the latter is stationed.

Mrs. Yale, Mrs. Sanford, Mrs. A. Conner and Mrs. Joseph Sanders received the guests and other assistants were Mrs. Helen Davis, of the Hardware Club, Mrs. Fred Metcalf, Christine Scott, Kathryn and Marjorie, and Florence Tree, of Brooklyn. Mrs. T. S. Davis poured in the dining room. A feature was a fine program of instrumental music. The Board of School, of Belle avenue, gave the first of two "at homes" yesterday afternoon, the second one to be on January 24. About one hundred guests were in attendance. The home was attractively decorated with flowers. Mrs. R. H. Hood received, who was assisted by Mrs. E. H. Ladd, Jr., of Virginia, Virginia Hageman, Miss Dorothy Fleming, Miss Graham and Miss L. H. McGowan, of Philadelphia, assisted by Mrs. Hood. There were numerous features to make the affair a delightful one for all present.

Patrolmen's Association Uses 'High Cost of Living' as Argument.

Patrolmen's Association Uses 'High Cost of Living' as Argument.

Patrolmen's Association Uses 'High Cost of Living' as Argument.

The Patrolmen's Benevolent Association petitioned the Common Council, last night, for an increase in wages, claiming that the cost of living is so high that the members of the force find it difficult to get along. They request that the minimum salary for the first year be \$900, the second, \$1,000, the third, \$1,100, the fourth, \$1,150 and \$1,200 for the fifth year. The matter was referred to the police committee. The firemen have also presented a similar petition to the fire and building committee, but it did not come up last night.

The contract for installing a new sewage pumping station on Sherman avenue, was awarded to the Elsie and Machinery Company, of New York, that concerns submitting the lowest bid for the work. Earlier in the evening a committee was received from the company in which it stated that if awarded the contract, the work would be done in the best possible manner with an absolute guarantee as to satisfaction.

D. T. Ten Eyck, P. V. Weaver and Heskiah Hand, conductors, were required to give a certificate of election before their bonds are passed upon.

The application of the Public Service Corporation for a permit to install two 35,000 gallon drip oil tanks on its property on East Fourth street, was granted on motion of Mr. Tyler. A fire hydrant was ordered located on Terrill road in response to a petition, a resolution being introduced by Mr. Taylor.

Herbert Buxton and C. C. Randolph was made member of the Board of School. Estimate through resolution offered by Mr. Mygatt.

MAYOR VOTES MORE PAY RESOLUTION
Adhering to his policy of economy Mayor May last night returned to the Common Council without his approval of the resolution increasing the salary of City Stenographer George H. Farrow. His salary is \$1,000, and by the resolution it was sought to raise it to \$600.

It was reported today that the resolution to increase the salary of the Mayor's veto at the next meeting of the Common Council.

Former Mayor Saunders to Preside at Consolidation Demonstration.

Former Mayor Saunders to Preside at Consolidation Demonstration.

Former Mayor Saunders to Preside at Consolidation Demonstration.

At a meeting of the Board of Directors of the Chamber of Commerce held in its rooms in the Frost building last night it was decided to call a public meeting some time during the present month to discuss the subject of consolidation of Plainfield and North Plainfield. Former Mayor William L. Saunders will preside at the meeting and speeches will be made by several men interested in the subject.

Judge John Ulrich who was elected temporary secretary at the first meeting of the chamber was re-elected last night for the full term of a year. He is assisted by a stenographer, President George C. Hancock, announced former Mayor Charles J. Pisk, himself and secretary Ulrich as the delegates to attend the conference of the National Association of Cities which is to be held at the Hotel Astor, New York on January 12, 13 and 14. This convention will listen to addresses by Theodore Roosevelt, Elihu Root and Wayne MacVeagh.

Among other business transacted at the payment of all indebtedness of the chamber up to date. This of course, includes the furnishing of the new rooms and expenses connected with the installation of the new body. The State Trust Company was officially decided upon as the depository of the chamber's funds. The several committees recently appointed by President Babcock to supervise the banquet to be held on February 12 will meet tonight to talk over plans for the event. The Board of Directors meets the first Monday and the chamber convenes on Tuesday. There are now eighty members enrolled and several applications have been received this week.

PUBLIC DISCUSSION OF THE FORDNEY WATER PROBLEM

The special water committee, which has the local water problem in charge, has arranged for a public hearing to be held in the Common Council rooms on Monday night, the first of the series of public discussions being given at a meeting of the committee, last night, and advertisements for the same are being placed in the newspapers, through a resolution offered by Mr. Mygatt.

This meeting will be open to the public and the water question is urged to attend and they will be given full opportunity to express their opinion on the subject. The committee has held several private conferences for the purpose of securing the opinion of large property-owners and now it is desired that the general public be given a similar opportunity.

WOMEN'S AUXILIARY ENTERTAIN LUNCHEON IN Y. M. C. A. HALL.
The Women's Auxiliary of the Y. M. C. A. held a breakfast luncheon in the rooms of the Y. M. C. A. yesterday afternoon the proceeds of which were for the work of the Y. M. C. A. The committee was Mrs. John Roundy.

JOHN H. COSE IS CHAIRMAN OF C. O. P. CITY COMMITTEE

John H. Cose was elected chairman of the City Republican Committee, at the annual meeting in the headquarters, the Frost building, last night succeeding Assistant Prosecutor Walter L. Hethfield, Jr.

HENRY BROWER WEDS MISS BAKWELL TODAY

Miss Euphemia Bakewell, daughter of Mrs. Thomas W. Bakewell, of West Eighth street, and Henry Wyckoff Brower, of East Ninth street, were united in marriage this afternoon in the Crescent Avenue Presbyterian church. Rev. Dr. J. S. Zelle, pastor of the church, will officiate. A large number of invitations have been issued.

The bride will wear a gown of white satin, embroidered with silver. The maid of honor will be Miss Carolyn Hayes, of Pittsburgh and the bridesmaids Miss Margaret Mead, Miss Helen Harman, Miss Arthur Hughes, Miss Edith Donald, Miss Katherine Williams and Miss Elizabeth McCawley.

The best man will be Harold S. Brown and the ushers will be Allen C. Bakewell, Jr., John P. Nyers, Clifford M. Baker, Dudley H. Barrows, Charles A. Kling and John L. Brower. A small reception will follow at the home of the bride's mother. After a party the couple will reside in this city.

MAYOR'S APPOINTEES ARE NOT CONFIRMED

MAYOR'S APPOINTEES ARE NOT CONFIRMED

MAYOR'S APPOINTEES ARE NOT CONFIRMED

John H. Cose was elected chairman of the City Republican Committee, at the annual meeting in the headquarters, the Frost building, last night succeeding Assistant Prosecutor Walter L. Hethfield, Jr.

These were the appointments sent in by the Mayor for confirmation: Overseer-of-the-poor—Rev. St. John Plick. Board of Health—Dr. William H. Murray, A. E. Force and LeRoy Ellis. Commissioners of Assessments—Howard C. Tracy, Edward A. Laing and Harry B. McDonald. Playground Commissioner—Geo. F. Mellick.

Mr. Tracy and Laing were stated to succeed Freeholder Samuel P. T. Wilbur and State Road Supervisor Robert A. Meeker, both of whom are members of the State Board of Supervisors. Mr. Tracy is a close political friend of Mr. May and was formerly chairman of the New Idea Central Committee. However, there was no political significance in his or the other appointments.

The appointment of Rev. Mr. Plick was made to fill the position which has been occupied for many years by Alexander D. Ayres. He is a retired Baptist minister who has resided here for several years. Dr. Murray and Messrs. Ellis and Force were selected by the new Mayor to take the places of Dr. B. H. Hodge, William C. Kinney and Charles H. Dunham, all of whom have been serving in that capacity for a number of years. Dr. Murray is a member of the State Board of Health. Mr. Ellis is president of the Plainfield Democratic Club. A. E. Force was president of the Meriden Central Club. He is also a Democrat. Dr. Hedges, who was booked to go, holds three political positions in the city government, being a director of the Plainfield Library and a member of the Board of Education.

George F. Mellick, whose appointment to the city is also a Democrat, Dr. Hedges, who was booked to go, holds three political positions in the city government, being a director of the Plainfield Library and a member of the Board of Education. The Mayor's appointments were made to take the places of the Mayor's predecessors. The Mayor's appointments were made to take the places of the Mayor's predecessors. The Mayor's appointments were made to take the places of the Mayor's predecessors.

QUEENSBORO BRIDGE

Is the Greatest Structure of its Kind in the World and Cost \$25,000,000 to Build.

Measured by its combined length and capacity of the five main spans, the Queensboro bridge, across the East River from Fifty-ninth Street, New York to Haverstraw, Queens, is the greatest bridge in the world. Including approaches, its total length is 8,500 feet, with 95 feet and greatest height over 200 feet above the water. It crosses from shore to shore, 125 feet above the river, with three enormous spans of 1,150 feet, 220 feet and 440 feet, the middle one reaching across the full width of Blackwell Island. Besides these there are two more great "anchorage" spans, one at each end, which over dry land, with a length of 8,724 feet for the five, which together weigh over 100,000,000 pounds of steel. No other spans in this country, except suspension bridges, approach the longest of these, and the only bridge in the world which exceeds it is the Forth bridge, which, although 1,710 feet long, has a capacity for only two one-third of this. There are two docks, the lower carrying a wide driveway and four electric car tracks and the upper one two sidewalks and two elevated railroad tracks and having in all an estimated capacity of 200,000,000 car passengers and millions of vehicles and pedestrians annually. It cost over \$25,000,000.—Exchange.

RULE OF THE SEA.

Old Whaling Law Applied to a Twice Caught Cod.

This etiquette is observed among the fishermen that journey to the fishing banks was discovered by an amateur angler in his first trip. The amateur hooked a codfish, but his line parted just as the fish was about the water. Back fell the codfish, carrying with him two sinkers and the hook. Twenty minutes later another angler cried out that he had captured a cod with two sinkers and a hook. The amateur went up to the angler, who appeared to be an old man, and asked for his hook and sinkers, which had his name stamped on them. He was surprised when the old man told him to take the fish also.

According to the rules generally followed on the fishing banks, the second angler was entitled to the fish, but the hook and sinkers should be returned to their owner. The old angler explained why he wanted to give up the fish.

It seems that he had followed the same great part of his life. When a young man he was a whaler and was according to whaling law, a dead whale belongs to the ship whose name appears on the harpoon that killed it. Therefore the old man felt that the amateur owner of the codfish he had taken.—New York Sun.

Euler's Wonderful Memory. Leonard Euler, who was born in 1707 and died in 1783 at St. Petersburg, where he spent his life as a teacher, was great not only as a mathematician, but also as a writer. He left more than 200 manuscript treatises on his favorite subject, and the bulk of the works published by his academy between 1727 and 1783 were from his pen. In his old age he was totally blind. There he carried in his memory the series of natural numbers up to 100.

It is related that on one occasion two of Euler's students attempted to calculate a converging series. As they advanced they found they disagreed in the result by a unit in the fifteenth place. The question was referred to Euler, who decided to make the calculation. He did this mentally, and his result was found to be correct.—New York Tribune.

The Codmoppe. Herrings are still eaten as much as to the days when Yarmouth had to send a hundred yearly to the king, baked in four and twenty pasties. But there the codmoppe, and what was it like when kings died off it in Lent? "Codmoppe" says Hollanders would sound most intriguing on a Saturday. More curious still would be the "rustle" of a Henry V. banquet, which was the "sea ewine" of the medieval ecclesiastical. A master cook gives an early receipt for "roasting of porpoise," another teaches "how to make porpoise and seals," another how to "underrunche that porpoise." From which it may be seen that enterprise extended also to the spelling of the porpoise.—London Chronicle.

Candy-makers' Tricks. An Athenian man went into a candy factory. He was surprised to see one of the candy-makers reach with his bare hand into a pot of boiling candy. He brought out a handful of the boiling candy. He was testing its consistency. He first put his hand in a pail of water. After he had jerked out his hand he put it back in the water. The Athenian man tried the same thing and did it without getting burned.—Athenian Globe.

Another Daring Question. "I say, Pa, is a man from Poland called a Pole?"

"Yes, my son."

"Then, Pa, why isn't a man from Holland called a Hole?"—Comic Cuts.

Insect Advice. Big Man (with a growl)—Will you be so kind as to get off my feet? Little Man (with a flourish)—I'll try, sir. Is it much of a walk?—Cleveland Leader.

Annual Meeting Which Followed Feast, Shows Flourishing Condition.

GEORGE E. HALL RE-ELECTED.
Finances in Good Condition—Memberships Increased—Officers are Elected—Committees Appointed.

The annual meeting and banquet of the Park Avenue Baptist Sunday-school was held on January 3, in the Sunway-scholar room, and the reports of the various departments showed the school to be in flourishing condition, both numerically and financially. The room was handsomely decorated. Tables were arranged in a hollow square, the color scheme was red and green. The feast was a success. The superintendent, George E. Hall, presiding.

Reports were read by Miss Elmina C. Ruyon, superintendent of the elementary department; Martin H. Stutman, secretary of the school; Joseph M. Harkins, treasurer of the school; and W. C. Harkins, treasurer of the benevolent fund. Miss Stutman said that the year 1910 had been one of the best in the history of the elementary grades, starting the new year with a gain of sixteen new members over last year, the total being 82. The collections from this department for the year were \$13.25. The benevolent fund had amounted to \$40.47 and missionary offerings were \$13.65. The "birthday" bank received during the year \$13.25. The membership is now 221. (Thirty-five members were lost upon removal from the city. Mr. Harkins' report showed that \$13.25 had been received during the year and that there was a balance on hand of \$13.25. Mr. Harkins' report showed that \$13.25 had been received during the year and that there was a balance on hand of \$13.25.

Mr. Harkins' report showed that \$13.25 had been received during the year and that there was a balance on hand of \$13.25. Mr. Harkins' report showed that \$13.25 had been received during the year and that there was a balance on hand of \$13.25. Mr. Harkins' report showed that \$13.25 had been received during the year and that there was a balance on hand of \$13.25.

CHRISTIAN ENDAVOR.

Prayer Meeting Topic For The Week Beginning Jan. 15, 1911.

Topic—Lesson from Genesis 22:1-14. Abraham—Gen. xxi, 1-3. Edited by Rev. George E. Hall, D. D.

Abraham was the first great character in God's development of a special people through whom the Messiah or Savior of the world was to come. It is therefore well called "the father of the faithful." He was the head of those who were to believe in one God, first of all the Israelites and later of all the peoples of the world. He was the father of the faithful. He was the head of those who were to believe in one God, first of all the Israelites and later of all the peoples of the world. He was the father of the faithful.

Abraham was the first great character in God's development of a special people through whom the Messiah or Savior of the world was to come. It is therefore well called "the father of the faithful." He was the head of those who were to believe in one God, first of all the Israelites and later of all the peoples of the world. He was the father of the faithful.

The Mayor and Council Hear the Views of Some Prominent Citizens.

GILBERT FAVORS CONTRACT.

J. O. Osgood and Others Also Express Doubts as to Desirability of the M. O. Scheme—Expert Maurics Conclude.

No stone is being left untuned by a Councilman water committee in ascertaining public sentiment on the report made by James F. Furter on the water supply problem as is shown by the fact that another conference of prominent citizens was held Wednesday. On invitation of Frederick E. Myzant, chairman of the committee, several who have made a study of the subject expressed their opinion at the two hours' meeting held in the Common Council's chamber.

Mayor Moy was present as were also R. L. Toles, D. W. Taylor, W. L. Glick, Herbert Buxton, G. S. Clay, F. L. Harkins, and F. L. Montague representing the Common Council. The expert Mr. Furter, was also on hand. Those who gave the committee the benefit of their views were: Henry Dewey, L. V. P. Randolph, Alexander Gilbert, Joseph O. Osgood, William S. Tyler and George H. Frost.

It was Mr. Gilbert's idea that the city authorities should exhaust every means to make a satisfactory water supply. He said that the city should not be content with the Union Water Company, but should make every effort to secure a better water supply. He said that the city should not be content with the Union Water Company, but should make every effort to secure a better water supply.

Mr. Osgood was another who took the position of Mr. Gilbert. He said that the city should not be content with the Union Water Company, but should make every effort to secure a better water supply. He said that the city should not be content with the Union Water Company, but should make every effort to secure a better water supply.

Mr. Frost, it is understood, however, found many supporters in the persons of Messrs. Randolph and Buxton. He said that the city should not be content with the Union Water Company, but should make every effort to secure a better water supply. He said that the city should not be content with the Union Water Company, but should make every effort to secure a better water supply.

Mr. Frost, it is understood, however, found many supporters in the persons of Messrs. Randolph and Buxton. He said that the city should not be content with the Union Water Company, but should make every effort to secure a better water supply. He said that the city should not be content with the Union Water Company, but should make every effort to secure a better water supply.

THE MAYOR'S WEATHER REPORT

33rd and 4th Sts.

Being 40.73 Inches.

HIGHEST TEMPERATURE WAS 66

Prevailing Wind Southwest—Lowest

Temperature One Below Zero

—120 Rainy Days—104

Clear Days.

The weather report for 1910 as prepared by John Neagle, the local weather prophet, presents some interesting data on a much-discussed topic. The highest temperature 98 degrees was on July 24, and the lowest 1 degree below zero, January 1 and December 10. The mean temperature was 51.7 degrees, normal temperature, 50.8 degrees; actual precipitation, 40.73 inches; normal precipitation, 49.32 inches; greatest monthly precipitation was in January, 1910, 1910; least monthly precipitation was in July, 0.33 inches; total snowfall for the year was 35.2 inches; the normal amount for the year is 34.4 inches; the total number of rainy days, 114; average number of rainy days, 129; total number of cloudy days, 194; number of days with clouds, 127; number of days cloudy, 104.

The prevailing wind direction for the year was as follows: Wind was north 10 days; northeast, 88 days; east, 17 days; southeast, 26 days; south, 3 days; southwest, 10 days; west, 10 days; northwest, 64 days. The precipitation for the year, 40.73 inches is recorded by month: January, 1910, 1910; February, 1910, 1910; March, 1910, 1910; April, 1910, 1910; May, 1910, 1910; June, 1910, 1910; July, 1910, 1910; August, 1910, 1910; September, 1910, 1910; October, 1910, 1910; November, 1910, 1910; December, 1910, 1910.

The deficiency for the year was 8.59 inches. The year 1910 was one of the nine years which are recorded for Plainfield. The total amount of precipitation of 50.83; 35.45 and 47.91 inches respectively. The other six consecutive years were 1905, 1906, 1907, 1908, 1909, 1910, with the total amount of precipitation of 50.83, 47.91, 48.59, 46.10 and 40.73 inches respectively.

The maximum rainfall of any year occurred in 1905 when the annual amount was 82.31 inches. The minimum occurred in 1908, the amount being 45.45 inches. The total of the year is on an average, November. The wettest month in July. The greatest monthly rainfall of 15.52 inches in July, 1910.

The snowfall for the year: Months Amount Normal January 1.74 9.0 March 1.0 6.4 April trace 0.5 November 0.4 1.9 December 19.0 2.4 Total 25.5 34.6

The record by seasons in temperature and precipitation was as follows: Season Temperature Normal Winter 25.6 20.5 Spring 52.5 48.8 Summer 71.3 71.5 Autumn 54.5 51.1

Mean temperature being 51.7 50.8 The precipitation by seasons follows: Season Inches Normal Winter 12.21 11.69 Spring 19.51 14.40 Summer 8.94 11.69 Autumn 8.94 11.69 Total 49.73 49.32

The mean temperature for the year being 51.7 degrees. The record for each month is given below with its normal: Months degrees Normal January 23.4 23.4 February 23.4 23.4 March 44.2 44.2 April 23.4 44.2 May 67.5 67.5 June 76.0 76.0 July 70.4 72.9 August 72.9 72.9 September 60.4 60.4 October 50.4 50.4 November 50.4 50.4 December 26.3 21.8

Means 51.7 50.8 The highest monthly mean was 76.0 degrees occurring in July. The lowest monthly mean was 23.4 degrees occurring in January. In comparing with other years, the highest previous mean occurred in July, 1909, 77.4. The lowest previous mean occurred in January 1904 when that was 21.5 degrees. The highest tem-

HIGH CLASS PICTURES
AT PLAINFIELD THEATRE.

Nelson M. Haas, by arrangement

with Proctor & Sanderson, will inaugurate an entertainment of high-class moving pictures, songs and instrumental music, on Saturday, at The Plainfield theatre. This form of entertainment will be provided at the theatre only on days when regular plays are not booked. There

will be two performances a day, at 2 o'clock in the afternoon and 8:30 o'clock in the evening.

The pictures Mr. Haas says, will be the best obtainable and the music will be of a high order. It is recognized he declares, that there are many people who are attracted by

moving pictures, without vaudeville features, and the fact that the seats will be reserved will appeal to many as desirable.

Halstead C. Compton and daughter, Miss Mary Compton, have reached Nassau, Bahama Islands, after a

The Misses Maizie and Katheryn Gray, of East Second street, have returned from a visit with friends in Newark.
